Arne Kaiser | 2020 (courtesy of the artist)

We carry in us a variety of experiences. Many are locked up and are just memories, like a still life. Others come to life, gain perspective, and through creativity, doors are opened ... and an infinite number of possibilities begins to throb. Obstacles exist, we hear about them ... in the minds of some people.

Arne Kaiser works since 1999 as a graphic designer in Lisbon. He passionately produces artbooks, and works for artschools, museums and cultural events. Together with the artist Leonor Hipólito he edits books under the label 'Idembooks'.
